Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

Applicant's submission of the English translation of the provisional applications is noted.

Applicant's claim to domestic priority is acknowledged.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 23-26 are rejected under 35 U.S.C. 102(e) as being anticipated by USP 6,040,915 to Wu et al. (herein referred to as "Wu").

Wu teaches an analysis apparatus for gases that comprises sample/reference cells **2 & 3** (reaction section); sample gas line **31** and reference gas line **32** (introduction tube); exhaust pump **41** (liquid feed pump); control valves **39 & 40** (gas flow rate controller); purge means **14** (gas-liquid separation section); processor **10** (data processor); semiconductor laser **1** (visible light source). See col. 5, line 20-col. 6, line 47.

Response to Arguments

3. Applicant's arguments, see remarks, filed 7/5/2005, with respect to the 35 USC 112,2nd paragraph rejections have been fully considered and are persuasive. The rejections of the claims has been withdrawn.

Art Unit: 1743

4. Applicant's arguments filed 7/5/2005 have been fully considered but they are not persuasive. Applicant has argued that the Wu reference is inapplicable primarily because of the structural relation of the component parts. Specifically, the component parts are not connected as the claims have been amended to reflect. However, it is the Examiner's position that the entire system as taught in Wu is connected. Thus, the presence of the parts within the apparatus of Wu is sufficient to overcome applicant's arguments. Merely stating that the component parts are "connected to" does not necessarily mean that the parts are directly connected to one another. As such, the rejection of claims 23-26 is being maintained.

Allowable Subject Matter

5. Claims 1-12 are allowed.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
